

End of Production Announcement

May 7, 2019

Dear Customer

Thank you for your continued business with our AOI.

We would like to announce the end of production of following machines.

- All desktop and inline models which contains FDL/FDA/FML/FMA in model name

These models (so called F series) use CMOS camera with 2M pixel. Up to now we handled the 4M pixel camera mounted for above models as optional, but will close the order with 2M pixel camera model received by end of September 2019. Production of orders from October 2019 onwards will proceed with 4M pixel camera as standard and so called "G series".

Model name replaces from "F" to "G", for example "FMA" changes to "GMA". Part of the name which indicates such as "M" for RGB lighting and "A" for angular camera will not change.

We appreciate your kind understanding in this matter.

Sincerely yours,

Marantz Electronics, Ltd.
